

# Cable Adjuster

User's manuals in other languages are available at : <http://si.shimano.com>

## IMPORTANT NOTICE

- Contact the place of purchase or a bicycle dealer for information on installation and adjustment of the products which are not found in the user's manual. A dealer's manual for professional and experienced bicycle mechanics is available on our website (<http://si.shimano.com>).
- Do not disassemble or alter this product.

**For safety, be sure to read this user's manual thoroughly before use, and follow them for correct use.**

## Important Safety Information

Guidelines that require replacement, contact the place of purchase or a bicycle dealer.

### WARNING

- After reading the user's manual carefully, keep it in a safe place for later reference.

### Note

- Also read the manuals included with the brake levers and the brake caliper.
- Products are not guaranteed against natural wear and deterioration from normal use and aging.
- For maximum performance we highly recommend Shimano lubricants and maintenance products.

## Regular inspections before riding the bicycle

Before riding the bicycle, check the following items. If any problems are found with the following items, contact the place of purchase or a bicycle dealer.

- Do the front and rear brakes work correctly?
- Does the brake lever have sufficient freeplay?
- Does the brake cable have any rust, fraying, or cracks?
- Have the brake shoes worn down to the grooves?
- Are there any abnormal noises?

## Names of parts

## Operation

Move the quick release lever of the cable adjuster to the OPEN position before removing the wheel. When installing a wheel, move the quick release lever to the OPEN position. After installation, **be sure to move the lever to the CLOSE position and check that the brakes work correctly before riding.**
